Thanks [REDACTED] - I don't have any updates on Ether. I do really like the Coincenter analysis from Peter van
valkenberg though. He has a presentation online that is helpful.

I'll let you know if I hear more. Also - as I see helpful analysis - I'll share that. How are things?

Brynly,

Any update you can provide about the SEC consideration of ETH as a security? Lots of rumors here but little
solid info.

Good luck on your SEC items.
